Notice Regarding Technical Center Box Issue Fee Mailings

The Office will begin mailing address labels with the PTOL-85, "Notice of Allowance and Issue Fee Due" for patent applications allowed in all Technology Centers. These address labels should be used to ensure proper routing of post-allowance correspondence. This directive supersedes the "Special Boxes for Patent Mail" instruction. Any Notice of Allowance and Issue Fee Due received without the accompanying address labels should continue to be addressed to Box Issue Fee.

Availability of PatentIn 2.1 Software For Preparation Of Sequence Listings

For patent applications in which nucleotide and/or amino acid sequence information is significant, many patent applicants are familiar with submitting such sequence information prepared with the PatentIn authoring tool. A general description of PatentIn is provided in MPEP § 2430. While use of the PatentIn authoring tool is not required, the many automatic features of PatentIn simplify generating Sequence Listings when compared to generating them by hand in a word processing environment.

The U.S. Patent and Trademark Office (USPTO) has developed a new release of the authoring tool (PatentIn 2.1) to aid in submitting Sequence Listings in computer readable form in compliance with WIPO ST.25, the PCT Administrative Instructions and 37 CFR 1.821 – 1.825. PatentIn 2.1 was developed through cooperation among the Trilateral Offices (USPTO, EPO and JPO). PatentIn 2.1 is the latest release of the PatentIn software and was designed to run on WINDOWS® based operating systems.

Copies of the PatentIn version 2.1 software (two 3.5 inch diskettes per set) and documentation can be obtained for $25 from the Office of Electronic Information Products (OEIP), which may be contacted at (703) 306-2600 (voice) or (703) 306-2737 (telefax) or by email at oeip@uspto.gov. The PatentIn version 2.1 software can also be obtained for free by downloading from the USPTO's internet Web site (http://www.uspto.gov).

Additional information can be obtained by calling or sending email to Christopher Low at christopher.low@uspto.gov; (703)-306-4119.

I. PETITIONS TO REVIVE ABANDONED APPLICATIONS

Effective October 30, 1999, §§1(d)(4) and 12(b) of the Trademark Act, 15 U.S.C. §§1051(d)(4) and 1062(b), and Trademark Rule 2.66, 37 C.F.R. §2.66, provide for revival of an abandoned application where the delay in responding to an Office action or notice of allowance was unintentional. A showing of "unavoidable delay" is no longer required. All petitions to revive that are pending or filed on or after October 30, 1999, will be reviewed under the unintentional delay standard.

A. Requirements for Petitions to Revive

1. Requirements for Petition to Revive Application Abandoned for Failure to Timely Respond to Examining Attorney's Office Action

The procedural requirements for filing a petition to revive an application abandoned for failure to respond to an examining attorney's Office action are listed in 37 C.F.R. §2.66(b). The petition must include all of the following:

(1) The petition fee required by 37 C.F.R. §2.6;

(2) A statement, signed by someone with firsthand knowledge of the facts, that the delay in filing the response on or before the due date was unintentional;

(3) Unless the applicant alleges that it did not receive the Office action, the applicant's proposed response to the Office action. The response should be on a separate paper from the petition.

2. Requirements for Petition to Revive Application Abandoned for Failure to File a Statement of Use - Notice of Allowance Received

The procedural requirements for filing a petition to revive an application abandoned for failure to respond to a notice of allowance are listed in 37 C.F.R. §2.66(c). If the applicant received the notice of allowance, the petition must include all of the following:

(1) The petition fee required by 37 C.F.R. §2.6;

(2) A statement, signed by someone with firsthand knowledge of the facts, that the delay in filing the statement of use (or request for extension of time to file a statement of use) on or before the due date was unintentional;

(3) Either a statement of use under 37 C.F.R. §2.88 or a request for an extension of time to file a statement of use under 37 C.F.R. §2.89; and

(4) The required fees for the number of requests for extensions of time to file a statement of use that the applicant should have filed under 37 C.F.R. §2.89 if the application had never been abandoned.

Example: For example, if a notice of allowance was issued June 14, 1998, and a petition to revive was filed August 1, 1999, the petition should be accompanied by: (a) either a statement of use or request for an extension of time to file a statement of use, together with the required filing fee; and (b) the fees for the extension requests due December 14, 1998 and June 14, 1999 (unless those fees had been previously paid). These fees are in addition to the petition fee.

The Office will *not* grant a petition to revive an intent-to-use application if the grant of the petition would extend the deadline for filing the statement of use beyond thirty-six months after issuance of the notice of allowance. 15 U.S.C. §1051(d)(2); 37 C.F.R. §2.66(d).

Filing a petition to revive does not stay the time for filing a statement of use or further extension request. When a petition is granted, the term of the requested six-month extension that was the subject of the petition runs from the expiration date of the previously existing six-month period for filing a statement of use. Thus, unless a statement of use is filed with or before the petition, the applicant must continue to file extension requests as they become due during the pendency of a petition. 37 C.F.R. §§2.66(c)(5) and 2.89(g).If the petition is denied, the fees for the extension requests filed during the pendency of the petition will be refunded.

If the applicant fails to file a statement of use, or further request(s) for extension(s) of time to file a statement of use while the petition is pending, the applicant will be given an opportunity to perfect the petition by paying the fees for each missed extension request and filing a copy of the last extension request, or statement of use, that should have been filed. *In re Moisture Jamzz, Inc.*, 47 USPQ2d 1762 (Comm'r Pats. 1997).

3. Requirements for Petition to Revive Application Abandoned for Failure to File a Statement of Use - Notice of Allowance Not Received

The procedural requirements for filing a petition to revive an application abandoned for failure to respond to a notice of allowance are listed in 37 C.F.R. §2.66(c). If the applicant did not receive the notice of allowance, the petition must include the following:

(1) The petition fee required by 37 C.F.R. §2.6; and

(2) A statement, signed by someone with firsthand knowledge of the facts, that the applicant did not receive the notice of allowance, and that the delay in filing the statement of use (or request for extension of time to file a statement of use) on or before the due date was unintentional;

If the applicant does not receive the notice of allowance, it is not necessary to file a statement of use or request for an extension of time to file a statement of use, or the fees for the number of requests for extensions of time to file a statement of use that would have been due if the application had never been abandoned. 37 C.F.R. §§2.66(c)(3) and (4). If the petitioner files an extension request with a petition that alleges nonreceipt of the notice of allowance, the Office will cancel the notice of allowance, refund the filing fee for the extension request, and forward the file to the Publication and Issue Section of the Office to reissue the notice of allowance.

If the petitioner files a statement of use with a petition that alleges nonreceipt of the notice of allowance, the Office will give the petitioner the option of (a) having the notice of allowance cancelled and reissued, and the filing fee for the statement of use refunded; or (b) paying the additional filing fees for the extension requests that would have been due if the application had never been abandoned.

4. Establishing Unintentional Delay

Trademark Rules 2.66(b)(2) and (c)(2), 37 C.F.R. §§2.66(b)(2) and (c)(2), require that a petition to revive include a statement, signed by someone with firsthand knowledge of the facts, that the delay in responding to the Office action or notice of allowance was unintentional. This statement need not be verified. Generally, the Office will not question the authority of the person signing the statement.

Except when alleging non-receipt of an Office action or notice of allowance, it is not necessary to explain the circumstances that caused the unintentional delay. The Office will generally not question the applicant's assertion that the delay in responding to an Office action or notice of allowance was unintentional, and will grant the petition, unless there is information in the record indicating that the delay was in fact intentional. An example of intentional delay is if an applicant

intentionally decides to refrain from filing a response or intent-to-use document because it no longer wants to pursue registration of the mark, only to later decide that it does.

B. Where the Unintentional Delay Standard Applies

Trademark Rule 2.66 applies only to the "failure" to respond to an Office action or notice of allowance, including the failure to meet minimum filing requirements for a statement of use or request for an extension of time to file a statement of use.

The minimum filing requirements for a statement of use are set forth in Trademark Rule 2.88(e), 37 C.F.R. §2.88(e): (1) the fee for at least a single class of goods or services; (2) at least one specimen or facsimile of the mark as used in commerce; and (3) a verification or declaration signed by the applicant stating that the mark is in use in commerce.

The minimum filing requirements for a request for extension of time to file a statement of use are: (1) a verified statement that the applicant has a continued bona fide intention to use the mark in commerce; (2) a specification of the goods or services on or in connection with which the applicant has a continued bona fide intention to use the mark in commerce; and (3) payment of the prescribed fee for at least one class of goods or services. *In re El Taurino Restaurant, Inc.*, 41 USPQ2d 1220, 1222 (Comm'r Pats. 1996).

An applicant who fails to meet the minimum filing requirements for a statement of use or request for an extension of time to file a statement of use has, in effect, not filed the statement of use or extension request. Therefore, if the failure to meet the minimum filing requirements was unintentional, the applicant may file a petition to revive under Trademark Rule 2.66. (*Note:* If a statement of use is timely filed and meets the minimum filing requirements that a statement of use must meet before it can be sent to an examining attorney for examination under Trademark Rule 2.88(e), Trademark Rule 2.66 does *not* apply. Therefore, Trademark Rule 2.66 does not apply to an application abandoned due to an examining attorney's refusal of registration on the ground that the applicant did not meet statutory requirements before expiration of the time for filing the statement of use (e.g., because the specimen(s) is unacceptable or the statement of use was not filed by the owner - *see* TMEP §1105.05(f)(i)(A)). The applicant may appeal the examining attorney's refusal of registration to the Trademark Trial and Appeal Board.)

An applicant may also file a petition to revive under Trademark Rule 2.66 if the applicant timely files a notice of appeal from an examining attorney's final refusal, but unintentionally fails to include the appeal fee required by §20 of the Act, 15 U.S.C. §1070.

C. Where the Unintentional Delay Standard Does Not Apply

1. Examining Attorney's Holding of Abandonment for Failure to File Complete Response to Office Action

Trademark Rule 2.66 does *not* apply to the unintentional filing of an incomplete response to an examining attorney's Office action. Incomplete responses to examining attorneys' Office actions are provided for by Trademark Rule 2.65(b), 37 C.F.R. §2.65(b), which gives the examining attorney discretion to grant an applicant additional time to respond if the applicant's failure to file a complete response is inadvertent. If the examining attorney holds the application abandoned for failure to file a complete response to an Office action, the applicant may file a petition to the Commissioner to review the examining attorney's action under Trademark Rule 2.146, 37 C.F.R. §2.146. These petitions are decided using a clear error standard of review. TMEP §1112.05; *In re GTE Education Services*, 34 USPQ2d 1478 (Comm'r Pats. 1994); *In re Legendary, Inc.*, 26 USPQ2d 1479 (Comm'r Pats. 1992).

2. Registered Marks

Trademark Rule 2.66 applies only to abandoned applications. The unintentional delay standard does not apply to an unintentional failure to respond to an Office action relating to an affidavit or declaration of continued use or excusable nonuse under §8 of the Trademark Act, 15 U.S.C. §1058, or a renewal application under §9 of the Act, 15 U.S.C. §1059. In these situations, the registrant may file a petition to the Commissioner under Trademark Rules 2.146(a)(3) and 2.146(a)(5), 37 C.F.R. §§2.146(a)(3) and 2.146(a)(5).

II. DEADLINES FOR FILING PETITIONS

Trademark Rule 2.66(a), 37 C.F.R. §2.66(a), requires that a petition to revive an abandoned application be filed: (1) within two months of the mailing date of the notice of abandonment; or (2) within two months of actual knowledge of the abandonment, if the applicant did not receive the notice of abandonment and the applicant was diligent in checking the status of the application.

Trademark Rule 2.146(d), 37 C.F.R. §2.146(d), is amended to set a two-month time limit for filing a petition to the Commissioner on a matter if no deadline is set forth elsewhere in the rules for that type of petition. Previously the deadline for filing these petitions was sixty days.

Trademark Rule 2.89(g), 37 C.F.R. §2.89(g), is amended to change the deadline for filing a petition from the denial of a request for an extension of time to file a statement of use from one month to two months from the mailing date of the denial of the request.

These deadlines will be strictly enforced.

III. DUE DILIGENCE

Trademark Rules 2.66(a)(2) and 2.146(i), 37 C.F.R. §§2.66(a)(2) and 2.146(i), require that the applicant/registrant monitor the status of its pending file. If the applicant does not receive the notice of abandonment or the registrant does not receive the notice of cancellation or expiration, the petitioner must show that it diligently monitored the status. To be considered diligent, a party must inquire within one year of the filing or receipt of a paper for which further action by the Office is expected. This codifies the longstanding past practice of the Office. TMEP §§413 and 1704. Even where a petitioner can swear that papers were mailed, or that a notice from the Office was never received by the petitioner, the Office will deny the petition if the petitioner waited too long before investigating the problem. The rationale is that granting the petition would be unfair to third parties who may have searched Office records and relied to their detriment on information that an application was abandoned or that a registration was cancelled. If the petitioner did receive the abandonment notice or post registration notification, a showing of due diligence is not required. Only the question of timeliness will be addressed.

A party can check the status of an application or registration through the Trademark Status Line ((703)-305-8747), or through the Trademark Applications and Registrations Retrieval (TARR) database on the Office's World Wide Web site at http://www.uspto.gov/go/tarr/. The party should keep notes in the party's own file as to the dates of the status inquiries and the substance of the information learned. No further documentation is required. Written status inquiries are discouraged.

IV. REQUESTS FOR RECONSIDERATION

Effective October 30, 1999, Trademark Rules 2.66(f) and 2.146(j), 37 C.F.R. §§2.66(f)(3) and 2.146(j), are amended to provide for requests for reconsideration of the denial of a petition to revive under Trademark Rule 2.66, or a petition to the Commissioner under Trademark Rule 2.146, upon payment of a second petition fee under Trademark Rule 2.6. A second petition fee will be required for any request for reconsideration reviewed on or after October 30, 1999.

A request for reconsideration must be filed within two months of the mailing date of the decision denying the petition.

If the petitioner presents new facts that warrant equitable relief, or there is a new standard of review for the petition, the Office may grant the petition upon request for reconsideration. However, the Office will generally deny the petition if the request for reconsideration merely reiterates or expands on arguments previously presented.

Since contested matters must be brought to a conclusion within a reasonable time, the Office will grant a petition upon a second request for reconsideration only in those rare situations where the petitioner presents significant facts or evidence that was not previously available. *In re American National Bank and Trust Company of Chicago*, 33 USPQ2d 1535 (Comm'r Pats. 1993).

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information from the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis CD-ROM series are available at all PTDLs to increase access to that information. It is through the CD-ROM systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI^3) in Sunnyvale, California.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
